

COURTESY TRANSLATION OF THE LIST OF DOCUMENTS REQUIRED TO OBTAIN THE FRENCH VALIDATION AS A PRIVATE AIM OF A FOREIGN ICAO LICENSE

➤ **Photocopies of the license.**

- A **certificate** (in French or English) from the country of issue confirming the authenticity of the license and that the pilot is permitted to exercise the privileges mentioned. Should the end of validity not appear on the license, validity of your ratings and medical aptitude should appear on the certificate.

For pilots holding an American license, this certificate will be requested directly by District aéronautique to F.A.A.

In other cases, the pilot will request the certificate to the country that delivered the license, and join it to the complete file.

- **Photocopy of a recent medical aptitude certificate** attached to the valid license.

For pilots over 40 the medical certificate must be less than 1 year old and less than 2 years for pilots under 40.

- **Photocopy of the last page of the flight notebook** certifying the overall total of flying hours as well as those flown as captain / pilot in command. The last flights should also appear.

- **Photocopy of the passport or National identity Card.**

- **2 identity photographs.**

- A **letter** requesting the validation of a foreign license including both the home address and French address (if possible) of the claimant. A phone number should be included. Please specify clearly to which address you want the validation sent once established.

- For pilots from European Economic Area (E.E.A.) country members, **photocopy of the resident's card or consular** in state still valid of the country having emitted the license or another country outside E.E.A. If your resident's card is no longer valid we will be unable to provide a French validation of your license.
