SIXTH COUNCIL DIRECTIVE

of 17 May 1977

on the harmonization of the laws of the Member States relating to turnover taxes — Common system of value added tax: uniform basis of assessment

(77/388/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 99 and 100 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament ⁽¹⁾,

Having regard to the opinion of the Economic and Social Committee ⁽²⁾;

Whereas all Member States have adopted a system of value added tax in accordance with the first and second Council Directives of 11 April 1967 on the harmonization of the laws of the Member States relating to turnover taxes ⁽³⁾;

Whereas the Decision of 21 April 1970 on the replacement of financial contributions from Member States by the Communities' own resources ⁽⁴⁾ provides that the budget of the Communities shall, irrespective of other revenue, be financed entirely from the Communities' own resources; whereas these resources are to include those accruing from value added tax and obtained by applying a common rate of tax on a basis of assessment determined in a uniform manner according to Community rules;

Whereas further progress should be made in the effective removal of restrictions on the movement of persons, goods, services and capital and the integration of national economies;

Whereas account should be taken of the objective of abolishing the imposition of tax on the importation and the remission of tax on exportation in trade between Member States; whereas it should be ensured that the common system of turnover taxes is non-discriminatory as regards the origin of goods and services, so that a common market permitting fair competition and resembling a real internal market may ultimately be achieved;

Whereas, to enhance the non-discriminatory nature of the tax, the term 'taxable person' must be clarified to enable the Member States to extend it to cover persons who occasionally carry out certain transactions;

Whereas the term 'taxable transaction' has led to difficulties, in particular as regards transactions treated as taxable transactions; whereas these concepts must be clarified;

Whereas the determination of the place where taxable transactions are effected has been the subject of conflicts concerning jurisdiction as between Member States, in particular as regards supplies of goods for assembly and the supply of services; whereas although the place where a supply of services is effected should in principle be defined as the place where the person supplying the services has his principal place of business, that place should be defined as being in the country of the person to whom the services are supplied, in particular in the case of certain services supplied between taxable persons where the cost of the services is included in the price of the goods;

Whereas the concepts of chargeable event and of the charge to tax must be harmonized if the introduction and any subsequent alterations of the Community rate are to become operative at the same time in all Member States;

⁽¹⁾ OJ No C 40, 8. 4. 1974, p. 25.

⁽²⁾ OJ No C 139, 12. 11. 1974, p. 15.

⁽³⁾ OJ No 71, 14. 4. 1967, p. 1301/67.

⁽⁴⁾ OJ No L 94, 28. 4. 1970, p. 19.

▼ **B**

Whereas the taxable base must be harmonized so that the application of the Community rate to taxable transactions leads to comparable results in all the Member States;

Whereas the rates applied by Member States must be such as to allow the normal deduction of the tax applied at the preceding stage;

Whereas a common list of exemptions should be drawn up so that the Communities own resources may be collected in a uniform manner in all the Member States;

Whereas the rules governing deductions should be harmonized to the extent that they affect the actual amounts collected; whereas the deductible proportion should be calculated in a similar manner in all the Member States;

Whereas it should be specified which persons are liable to pay tax, in particular as regards services supplied by a person established in another country;

Whereas the obligations of taxpayers must be harmonized as far as possible so as to ensure the necessary safeguards for the collection of taxes in a uniform manner in all the Member States; whereas taxpayers should, in particular, make a periodic aggregate return of their transactions, relating to both inputs and outputs where this appears necessary for establishing and monitoring the basis of assessment of own resources;

Whereas Member States should nevertheless be able to retain their special schemes for small undertakings, in accordance with common provisions, and with a view to closer harmonization; whereas Member States should remain free to apply a special scheme involving flat rate rebates of input value added tax to farmers not covered by normal schemes; whereas the basic principles of this scheme should be established and a common method adopted for calculating the value added of these farmers for the purposes of collecting own resources;

Whereas the uniform application of the provisions of this Directive should be ensured; whereas to this end a Community procedure for consultation should be laid down; whereas the setting up of a Value Added Tax Committee would enable the Member States and the Commission to cooperate closely;

Whereas Member States should be able, within certain limits and subject to certain conditions, to take or retain special measures derogating from this Directive in order to simplify the levying of tax or to avoid fraud or tax avoidance;

Whereas it might appear appropriate to authorize Member States to conclude with non-member countries or international organizations agreements containing derogations from this Directive;

Whereas it is vital to provide for a transitional period to allow national laws in specified fields to be gradually adapted,

HAS ADOPTED THIS DIRECTIVE:

TITLE IV

TAXABLE PERSONS

Article 4

1. 'Taxable person' shall mean any person who independently carries out in any place any economic activity specified in paragraph 2, whatever the purpose or results of that activity.

2. The economic activities referred to in paragraph 1 shall comprise all activities of producers, traders and persons supplying services including mining and agricultural activities and activities of the professions. The exploitation of tangible or intangible property for the purpose of obtaining income therefrom on a continuing basis shall also be considered an economic activity.

3. Member States may also treat as a taxable person anyone who carries out, on an occasional basis, a transaction relating to the activities referred to in paragraph 2 and in particular one of the following:

- (a) the supply before first occupation of buildings or parts of buildings and the land on which they stand; Member States may determine the conditions of application of this criterion to transformations of buildings and the land on which they stand.

Member States may apply criteria other than that of first occupation, such as the period elapsing between the date of completion of the building and the date of first supply or the period elapsing between the date of first occupation and the date of subsequent supply, provided that these periods do not exceed five years and two years respectively.

'A building' shall be taken to mean any structure fixed to or in the ground;

Subject to the consultations provided for in Article 29, each Member State may treat as a single taxable person persons established in the territory of the country who, while legally independent, are closely bound to one another by financial, economic and organizational links.

▼B

5. States, regional and local government authorities and other bodies governed by public law shall not be considered taxable persons in respect of the activities or transactions in which they engage as public authorities, even where they collect dues, fees, contributions or payments in connection with these activities or transactions.

However, when they engage in such activities or transactions, they shall be considered taxable persons in respect of these activities or transactions where treatment as non-taxable persons would lead to significant distortions of competition.

In any case, these bodies shall be considered taxable persons in relation to the activities listed in Annex D, provided they are not carried out on such a small scale as to be negligible.

Member States may consider activities of these bodies which are exempt under Article 13 or 28 as activities which they engage in as public authorities.

TITLE V

▼M10

5. Member States may consider the handing over of certain works of construction to be supplies within the meaning of paragraph 1.

▼B

The application by a taxable person of goods forming part of his business assets for his private use or that of his staff, or the disposal thereof free of charge or more generally their application for purposes other than those of his business, where the value added tax on the goods in question or the component parts thereof was wholly or partly deductible, shall be treated as supplies made for consideration. However, applications for the giving of samples or the making of gifts of small value for the purposes of the taxable person's business shall not be so treated.

7. Member States may treat as supplies made for consideration:

▼B

- (a) the application by a taxable person for the purposes of his business of goods produced, constructed, extracted, processed, purchased or imported in the course of such business, where the value added tax on such goods, had they been acquired from another taxable person, would not be wholly deductible;

8. In the event of a transfer, whether for consideration or not or as a contribution to a company, of a totality of assets or part thereof, Member States may consider that no supply of goods has taken place and in that event the recipient shall be treated as the successor to the transferor. Where appropriate, Member States may take the necessary measures to prevent distortion of competition in cases where the recipient is not wholly liable to tax.

*Article 6***Supply of services**

Such transactions may include *inter alia*:

- assignments of intangible property whether or not it is the subject of a document establishing title,

- (b) supplies of services carried out free of charge by the taxable person for his own private use or that of his staff or more generally for purposes other than those of his business.

Member States may derogate from the provisions of this paragraph provided that such derogation does not lead to distortion of competition.

3. In order to prevent distortion of competition and subject to the consultations provided for in Article 29, Member States may treat as a supply of services for consideration the supply by a taxable person of a service for the purposes of his undertaking where the value added tax on such a service, had it been supplied by another taxable person, would not be wholly deductible.

Article 10

1. (a) 'Chargeable event' shall mean the occurrence by virtue of which the legal conditions necessary for tax to become chargeable are fulfilled.
 - (b) The tax becomes 'chargeable' when the tax authority becomes entitled under the law at a given moment to claim the tax from the person liable to pay, notwithstanding that the time of payment may be deferred.
2. The chargeable event shall occur and the tax shall become chargeable when the goods are delivered or the services are performed. Deliveries of goods other than those referred to in Article 5 (4) (b) and supplies of services which give rise to successive statements of account or payments shall be regarded as being completed at the time when the periods to which such statements of account or payments pertain expire.
- **M18** Member States may in certain cases provide that continuous supplies of goods and services which take place over a period of time shall be regarded as being completed at least at intervals of one year. ◀

▼B

By way of derogation from the above provisions, Member States may provide that the tax shall become chargeable, for certain transactions or for certain categories of taxable person, either:

Where imported goods are not subject to any of those Community duties, Member States shall apply the provisions in force governing customs duties as regards the occurrence of the chargeable event and the moment when the tax becomes chargeable.

*Article 11*A. *Within the territory of the country*

1. The taxable amount shall be:

2. The taxable amount shall include:
 - (a) taxes, duties, levies and charges, excluding the value added tax itself;

The taxable person must furnish proof of the actual amount of this expenditure and may not deduct any tax which may have been charged on these transactions.

▼M8

4. By way of derogation from paragraphs 1, 2 and 3, Member States which, on 1 January 1993, did not avail themselves of the option provided for in the third subparagraph of Article 12 (3) (a) may, where they avail themselves of the option provided for in Title B (6), provide that, for the transactions referred to in the second subparagraph of Article 12 (3) (c), the taxable amount shall be equal to a fraction of the amount determined in accordance with paragraphs 1, 2 and 3.

That fraction shall be determined in such a way that the value added tax thus due is, in any event, equal to at least 5 % of the amount determined in accordance with paragraphs 1, 2 and 3.

▼M8

6. By way of derogation from paragraphs 1 to 4, Member States which, on 1 January 1993, did not avail themselves of the option provided for in the third subparagraph of Article 12 (3) (a) may provide that for imports of the works of art, collectors' items and antiques defined in Article 26a (A) (a), (b) and (c), the taxable amount shall be equal to a fraction of the amount determined in accordance with paragraphs 1 to 4.

▼M4

2. Where information for determining the taxable amount on importation is expressed in a currency other than that of the Member State where assessment takes place, the exchange rate shall be determined in accordance with the Community provisions governing the calculation of the value for customs purposes.

Where information for the determination of the taxable amount of a transaction other than an import transaction is expressed in a currency other than that of the Member State where assessment takes place, the exchange rate applicable shall be the latest selling rate recorded, at the time the tax becomes chargeable, on the most representative exchange market or markets of the Member State concerned, or a rate determined by reference to that or those markets, in accordance with the down by that Member State. However, for some of those transactions or for certain categories of taxable person, Member States may continue to apply the exchange rate determined in accordance with the Community provisions in force governing the calculation of the value for customs purposes.

▼B

3. As regards returnable packing costs, Member States may:
- either exclude them from the taxable amount and take the necessary measures to see that this amount is adjusted if the packing is not returned,

▼ M11

▼ **M13**▼ **B**

4. ► **M5** ————— ◀ Each reduced rate shall be so fixed that the amount of value added tax resulting from the application thereof shall be such as in the normal way to permit the deduction therefrom of the whole of the value added tax deductible under the provisions of Article 17.

▼ **M5**

On the basis of a report from the Commission, the Council shall, starting in 1994, review the scope of the reduced rates every two years. The Council, acting unanimously on a proposal from the Commission, may decide to alter the list of goods and services in Annex H.

2. In so far as the goods and services are used for the purposes of his taxable transactions, the taxable person shall be entitled to deduct from the tax which he is liable to pay:
 - (a) value added tax due or paid in respect of goods or services supplied or to be supplied to him by another taxable person;
 - (b) value added tax due or paid in respect of imported goods;
 - (c) value added tax due under Articles 5 (7) (a) and 6 (3).
3. Member States shall also grant to every taxable person the right to a deduction or refund of the value added tax referred to in paragraph 2 in so far as the goods and services are used for the purposes of:
 - (a) transactions relating to the economic activities as referred to in Article 4 (2) carried out in another country, which would be eligible for deduction of tax if they had occurred in the territory of the country;
 - (b) transactions which are exempt under Article 14 (1) (i) and under Articles 15 and 16 (1) (B), (C) and (D), and paragraph 2;
 - (c) any of the transactions exempted under Article 13 B (a) and (d), paragraphs 1 to 5, when the customer is established outside the Community or when these transactions are directly linked with goods intended to be exported to a country outside the Community.
4. The Council shall endeavour to adopt before 31 December 1977, on a proposal from the Commission and acting unanimously, Community rules laying down the arrangements under which refunds are to be made in accordance with paragraph 3 to taxable persons not established in the territory of the country. Until such Community arrangements enter into force, Member States shall themselves determine the method by which the refund concerned shall be made. Where the taxable person is not resident in the territory of the Community, Member States may refuse the refund or impose supplementary conditions.
5. As regards goods and services to be used by a taxable person both for transactions covered by paragraphs 2 and 3, in respect of which value added tax is deductible, and for transactions in respect of which value added tax is not deductible, only such proportion of the value added tax shall be deductible as is attributable to the former transactions.

This proportion shall be determined, in accordance with Article 19, for all the transactions carried out by the taxable person.

However, Member States may:

- (a) authorize the taxable person to determine a proportion for each sector of his business, provided that separate accounts are kept for each sector;
- (b) compel the taxable person to determine a proportion for each sector of his business and to keep separate accounts for each sector;
- (c) authorize or compel the taxable person to make the deduction on the basis of the use of all or part of the goods and services;
- (d) authorize or compel the taxable person to make the deduction in accordance with the rule laid down in the first subparagraph, in respect of all goods and services used for all transactions referred to therein;
- (e) provide that where the value added tax which is not deductible by the taxable person is insignificant it shall be treated as nil.

▼**B**

6. Before a period of four years at the latest has elapsed from the date of entry into force of this Directive, the Council, acting unanimously on a proposal from the Commission, shall decide what expenditure shall not be eligible for a deduction of value added tax. Value added tax shall in no circumstances be deductible on expenditure which is not strictly business expenditure, such as that on luxuries, amusements or entertainment.

Until the above rules come into force, Member States may retain all the exclusions provided for under their national laws when this Directive comes into force.

7. Subject to the consultation provided for in Article 29, each Member State may, for cyclical economic reasons, totally or partly exclude all or some capital goods or other goods from the system of deductions. To maintain identical conditions of competition, Member States may instead of refusing deduction, tax the goods manufactured by the taxable person himself or which he has purchased in the country or imported, in such a way that the tax does not exceed the value added tax which would have been charged on the acquisition of similar goods.

*Article 18***Rules governing the exercise of the right to deduct**

1. To exercise his right to deduct, the taxable person must:
 - (a) in respect of deductions under Article 17 (2) (a), hold an invoice, drawn up in accordance with Article 22 (3);
 - (b) in respect of deductions under Article 17 (2) (b), hold an import document, specifying him as consignee or importer, and stating or permitting calculation of the amount of tax due;
 - (c) in respect of deductions under Article 17 (2) (c), comply with the formalities established by each Member State;
 - (d) when he is required to pay the tax as a customer or purchaser where Article 21 (1) applies, comply with the formalities laid down by each Member State.
2. The taxable person shall effect the deduction by subtracting from the total amount of value added tax due for a given tax period the total amount of the tax in respect of which, during the same period, the right to deduct has arisen and can be exercised under the provisions of paragraph 1.

However, Member States may require that as regards taxable persons who carry out occasional transactions as defined in Article 4 (3), the right to deduct shall be exercised only at the time of the supply.

3. Member States shall determine the conditions and procedures whereby a taxable person may be authorized to make a deduction which he has not made in accordance with the provisions of paragraphs 1 and 2.

4. where for a given tax period the amount of authorized deductions exceeds the amount of tax due, the Member States may either make a refund or carry the excess forward to the following period according to conditions which they shall determine.

However, Member States may refuse to refund or carry forward if the amount of the excess is insignificant.

*Article 19***Calculation of the deductible proportion**

1. The proportion deductible under the first subparagraph of Article 17 (5) shall be made up of a fraction having:
 - as numerator, the total amount, exclusive of value added tax, of turnover per year attributable to transactions in respect of which value added tax is deductible under Article 17 (2) and (3),

▼B

— as denominator, the total amount, exclusive of value added tax, of turnover per year attributable to transactions included in the numerator and to transactions in respect of which value added tax is not deductible. The Member States may also include in the denominator the amount of subsidies, other than those specified in Article 11 A (1) (a).

The proportion shall be determined on an annual basis, fixed as a percentage and rounded up to a figure not exceeding the next unit.

2. By way of derogation from the provisions of paragraph 1, there shall be excluded from the calculation of the deductible proportion, amounts of turnover attributable to the supplies of capital goods used by the taxable person for the purposes of his business. Amounts of turnover attributable to transactions specified in Article 13 B (d), in so far as these are incidental transactions, and to incidental real estate and financial transactions shall also be excluded. where Member States exercise the option provided under Article 20 (5) not to require adjustment in respect of capital goods, they may include disposals of capital goods in the calculation of the deductible proportion.

3. The provisional proportion for a year shall be that calculated on the basis of the preceding year's transactions. In the absence of any such transactions to refer to, or where they were insignificant in amount, the deductible proportion shall be estimated provisionally, under supervision of the tax authorities, by the taxable person from his own forecasts. However, Member States may retain their current rules.

Deductions made on the basis of such provisional proportion shall be adjusted when the final proportion is fixed during the next year.

*Article 20***Adjustments of deductions**

1. The initial deduction shall be adjusted according to the procedures laid down by the Member States, in particular:

- (a) where that deduction was higher or lower than that to which the taxable person was entitled;
- (b) where after the return is made some change occurs in the factors used to determine the amount to be deducted, in particular where purchases are cancelled or price reductions are obtained; however, adjustment shall not be made in cases of transactions remaining totally or partially unpaid and of destruction, loss or theft of property duly proved or confirmed, nor in the case of applications for the purpose of making gifts of small value and giving samples specified in Article 5 (6). However, Member States may require adjustment in cases of transactions remaining totally or partially unpaid and of theft.

2. In the case of capital goods, adjustment shall be spread over five years including that in which the goods were acquired or manufactured. The annual adjustment shall be made only in respect of one-fifth of the tax imposed on the goods. The adjustment shall be made on the basis of the variations in the deduction entitlement in subsequent years in relation to that for the year in which the goods were acquired or manufactured.

By way of derogation from the preceding subparagraph, Member States may base the adjustment on a period of five full years starting from the time at which the goods are first used.

▼M10

In the case of immovable property acquired as capital goods, the adjustment period may be extended up to 20 years.

▼B

3. In the case of supply during the period of adjustment capital goods shall be regarded as if they had still been applied for business use by the taxable person until expiry of the period of adjustment. Such business activities are presumed to be fully taxed in cases where the delivery of

▼B

the said goods is taxed; they are presumed to be fully exempt where the delivery is exempt. The adjustment shall be made only once for the whole period of adjustment still to be covered.

However, in the latter case, Member States may waive the requirement for adjustment in so far as the purchaser is a taxable person using the capital goods in question solely for transactions in respect of which value added tax is deductible.

4. For the purposes of applying the provisions of paragraphs 2 and 3, Member States may:

- define the concept of capital goods,
- indicate the amount of the tax which is to be taken into consideration for adjustment,
- adopt any suitable measures with a view to ensuring that adjustment does not involve any unjustified advantage,
- permit administrative simplifications.

5. If in any Member State the practical effect of applying paragraphs 2 and 3 would be insignificant, that Member State may subject to the consultation provided for in Article 29 forego application of these paragraphs having regard to the need to avoid distortion of competition, the overall tax effect in the Member State concerned and the need for due economy of administration.

6. Where the taxable person transfers from being taxed in the normal way to a special scheme or *vice versa*, Member States may take all necessary measures to ensure that the taxable person neither benefits nor is prejudiced unjustifiably.

TITLE XII

PERSONS LIABLE FOR PAYMENT FOR TAX

*Article 21***Persons liable to pay tax to the authorities**

The following shall be liable to pay value added tax:

1. under the internal system:

- (a) taxable persons who carry out taxable transactions other than those referred to in Article 9 (2) (e) and carried out by a taxable person resident abroad. The Member States may also provide that someone other than the taxable person shall be held jointly and severally liable for payment of the tax;

▼M15

- (b) taxable persons to whom services covered by Article 9(2)(e) are supplied or persons who are identified for value added tax purposes within the territory of the country to whom services covered by Article 28b(C), (D), (E) and (F) are supplied, if the services are carried out by a taxable person established abroad; however, Member States may require that the supplier of services shall be held jointly and severally liable for payment of the tax;

2. Every taxable person shall keep accounts in sufficient detail to permit application of the value added tax and inspection by the tax authority.
3. (a) Every taxable person shall issue an invoice, or other document serving as invoice in respect of all goods and services supplied by him to another taxable person, and shall keep a copy thereof.
Every taxable person shall likewise issue an invoice in respect of payments on account made to him by another taxable person before the supply of goods or services is effected or completed.

- (c) The Member States shall determine the criteria for considering whether a document serves as an invoice.
4. Every taxable person shall submit a return within an interval to be determined by each Member State. This interval may not exceed two months following the end of each tax period. The tax period may be fixed by Member States as a month, two months, or a quarter. However, Member States may fix different periods provided that these do not exceed a year

The return must set out all the information needed to calculate the tax that has become chargeable and the deductions to be made, including, where appropriate, and in so far as it seems necessary for the establishment of the tax basis, the total amount of the transactions relative to such tax and deductions, and the total amount of the exempted supplies.
5. Every taxable person shall pay the net amount of the value added tax when submitting the return. The Member States may, however, fix a different date for the payment of the amount or may demand an interim payment.
6. Member States may require a taxable person to submit a statement, including the information specified in paragraph 4, and concerning all transactions carried out the preceding year. This statement must provide all the information necessary for any adjustments.
7. Member States shall take the necessary measures to ensure that those persons who, in accordance with Article 21 (1) (a) and (b), are considered to be liable to pay the tax instead of a taxable person established in another country or who are jointly and severally liable for the payment, shall comply with the above obligations relating to declaration and payment.
8. Without prejudice to the provisions to be adopted pursuant to Article 17 (4), Member States may impose other obligations which they deem necessary for the correct levying and collection of the tax and for the prevention of fraud.

 - from certain obligations,
 - from all obligations where those taxable persons carry out only exempt transactions,
 - from the payment of the tax due where the amount is insignificant.

▼ **M20***Article 22a***Right of access to invoices stored by electronic means in another Member State**

When a taxable person stores invoices which he issues or receives by an electronic means guaranteeing on-line access to the data and when the place of storage is in a Member State other than that in which he is established, the competent authorities in the Member State in which he is established shall have a right, for the purpose of this directive, to access by electronic means, download and use these invoices within the limits set by the regulations of the Member State where the taxable person is established and as far as that State requires for control purposes.

▼ **B***Article 23***Obligations in respect of imports**

As regards imported goods, Member States shall lay down the detailed rules for the making of the declarations and payments.

In particular, Member States may provide that the value added tax payable on importation of goods by taxable persons or persons liable to tax or certain categories of these two need not be paid at the time of importation, on condition that the tax is mentioned as such in a return to be submitted under Article 22 (4).

TITLE XIV

SPECIAL SCHEMES*Article 24***Special scheme for small undertakings**

1. Member States which might encounter difficulties in applying the normal tax scheme to small undertakings by reason of their activities or structure shall have the option, under such conditions and within such limits as they may set but subject to the consultation provided for in Article 29, of applying simplified procedures such as flat-rate schemes for charging and collecting the tax provided they do not lead to a reduction thereof.

2. Until a date to be fixed by the Council acting unanimously on a proposal from the Commission, but which shall not be later than that on which the charging of tax on imports and the remission of tax on exports in trade between the Member States are abolished:

- (a) Member States which have made use of the option under Article 14 of the second Council Directive of 11 April 1967 to introduce exemptions or graduated tax relief may retain them and the arrangements for applying them if they conform with the value added tax system.

Those Member States which apply an exemption from tax to taxable persons whose annual turnover is less than the equivalent in national currency of 5 000 European units of account at the conversion rate of the day on which this Directive is adopted, may increase this exemption up to 5 00 European units of account.

Member States which apply graduated tax relief may neither increase the ceiling of the graduated tax reliefs nor render the conditions for the granting of it more favourable;

- (b) Member States which have not made use of this option may grant an exemption from tax to taxable persons whose annual turnover is at the maximum equal to the equivalent in national currency of 5 000 European units of account at the conversion rate of the day on which this Directive is adopted; where appropriate, they may grant

▼ **B**

graduated tax relief to taxable persons whose annual turnover exceeds the ceiling fixed by the Member States for the application of exemption;

- (c) Member States which apply an exemption from tax to taxable persons whose annual turnover is equal to or higher than the equivalent in national currency of 5 000 European units of account at the conversion rate of the day on which this Directive is adopted, may increase it in order to maintain its value in real terms.

3. The concepts of exemption and graduated tax relief shall apply to the supply of goods and services by small undertakings.

Member States may exclude certain transactions from the arrangements provided for in paragraph 2. The provisions of paragraph 2 shall not, in any case, apply to the transactions referred to in Article 4 (3).

4. The turnover which shall serve as a reference for the purposes of applying the provisions of paragraph 2 shall consist of the amount, exclusive of value added tax, of goods and services supplied as defined in Articles 5 and 6, to the extent that they are taxed, including transactions exempted with refund of tax previously paid in accordance with Article 28 (2), and the amount of the transactions exempted pursuant to Article 15, the amount of real property transactions, the financial transactions referred to in Article 13 B (d), and insurance services, unless these transactions are ancillary transactions.

However, disposals of tangible or intangible capital assets of an undertaking shall not be taken into account for the purposes of calculating turnover.

5. Taxable persons exempt from tax shall not be entitled to deduct tax in accordance with the provisions of Article 17, nor to show the tax on their invoices ► **M20** ————— ◀.

6. Taxable persons eligible for exemption from tax may opt either for the normal value added tax scheme or for the simplified procedures referred to in paragraph 1. In this case they shall be entitled to any graduated tax relief which may be laid down by national legislation.

7. Subject to the application of paragraph 1, taxable persons enjoying graduated relief shall be treated as taxable persons subject to the normal value added tax scheme.

8. At four-yearly intervals, and for the first time on 1 January 1982, and after consultation of the Member States, the Commission shall report to the Council on the application of the provisions of this Article. It shall as far as may be necessary, and taking into account the need to ensure the long-term convergence of national regulations, attach to this report proposals for:

- (a) improvements to be made to the special scheme for small undertakings;
- (b) the adaptation of national systems as regards exemptions and graduated value added tax relief;
- (c) the adaptation of the limit of 5 000 European units of account mentioned in paragraph 2.

9. The Council will decide at the appropriate time whether the realization of the objective referred to in Article 4 of the first Council Directive of 11 April 1967 requires the introduction of a special scheme for small undertakings and will, if appropriate, decide on the limits and common implementing conditions of this scheme. Until the introduction of such a scheme, Member States may retain their own special schemes which they will apply in accordance with the provisions of this Article and of subsequent acts of the Council.

▼ **M26***Article 24a*

In implementing Article 24(2) to (6), the following Member States may grant an exemption from value added tax to taxable persons whose annual turnover is less than the equivalent in national currency at the conversion rate on the date of their accession:

- in Poland: EUR 10 000;
- in Slovenia: EUR 25 000;

▼ **B***Article 25***Common flat-rate scheme for farmers**

1. Where the application to farmers of the normal value added tax scheme, or the simplified scheme provided for in Article 24, would give rise to difficulties, Member States may apply to farmers a flat-rate scheme tending to offset the value added tax charged on purchases of goods and services made by the flat-rate farmers pursuant to this Article.
2. For the purposes of this Article the following definitions shall apply:
 - ‘farmer’: a taxable person who carries on his activity in one of the undertakings defined below,
 - ‘agricultural, forestry or fisheries undertakings’: an undertaking considered to be such by each Member State within the framework of the production activities listed in Annex A,
 - ‘flat-rate farmer’: a farmer subject to the flat-rate scheme provided for in paragraphs 3 *et seq.*,
 - ‘agricultural products’: goods produced by an agricultural, forestry or fisheries undertaking in each Member State as a result of the activities listed in Annex A,
 - ‘agricultural service’: any service as set out in Annex B supplied by a farmer using his labour force and/or by means of the equipment normally available on the agricultural, forestry or fisheries undertaking operated by him,
 - ‘value added tax charge on inputs’: the amount of the total value added tax attaching to the goods and services purchased by all agricultural, forestry and fisheries undertakings of each Member State subject to the flat-rate scheme where such tax would be deductible under Article 17 by a farmer subject to the normal value added tax scheme,
 - ‘flat-rate compensation percentages’: the percentages fixed by Member States in accordance with paragraph 3 and applied by them in the cases specified in paragraph 5 to enable flat-rate farmers to offset at a fixed rate the value added tax charge on inputs,
 - ‘flat-rate compensation’: the amount arrived at by applying the flat-rate compensation percentage provided for in paragraph 3 to the turnover of the flat-rate farmer in the cases referred to in paragraph 5.
3. Member States shall fix the flat-rate compensation percentages, where necessary, and shall notify the Commission before applying them. Such percentages shall be based on macro-economic statistics for flat-rate farmers alone for the preceding three years. They may not be used to obtain for flat-rate farmers refunds greater than the value added tax

▼**B**

charges on inputs. Member States shall have the option of reducing such percentages to a nil rate. The percentage may be rounded up or down to the nearest half point.

Member States may fix varying flat-rate compensation percentages for forestry, for the different sub-divisions of agriculture and for fisheries.

4. Member States may release flat-rate farmers from the obligations imposed upon taxable persons by Article 22.

5. The flat-rate percentages provided for in paragraph 3 shall be applied to the price, exclusive of tax, of the agricultural products and agricultural services supplied by the flat-rate farmers to taxable persons other than a flat-rate farmer. This compensation shall exclude all other forms of deduction.

6. Member States may provide for the flat-rate compensation to be paid:

(a) either by the taxable person to whom the goods or services are supplied. In this case, the taxable person to whom the goods or services are supplied shall be authorized, following the procedure laid down by the Member States, to deduct from the value added tax for which he is liable, the amount of the flat-rate compensation he has paid to the flat-rate farmers;

(b) or by the public authorities.

7. Member States shall make all necessary provisions to check properly the payment of the flat-rate compensation to the flat-rate farmers.

8. As regards all supplies of agricultural products and agricultural services other than those covered by paragraph 5, the flat-rate compensation is deemed to be paid by the purchaser or customer.

9. Each Member State may exclude from the flat-rate scheme certain categories of farmers and farmers for whom the application of the normal value added tax scheme, or the simplified scheme provided for in Article 24 (1), would not give rise to administrative difficulties.

10. Every flat-rate farmer may opt, subject to the rules and conditions to be laid down by each Member State, for application of the normal value added tax scheme or, as the case may be, the simplified scheme provided for in Article 24 (1).

11. The Commission shall, before the end of the fifth year following the entry into force of this Directive, present to the Council new proposals concerning the application of the value added tax to transactions in respect of agricultural products and services.

12. When they take up the option provided for in this Article the Member States shall fix the uniform basis of assessment of the value added tax in order to apply the scheme of own resources using the common method of calculation in Annex C.

Article 26

Special scheme for travel agents

1. Member States shall apply value added tax to the operations of travel agents in accordance with the provisions of this Article, where the travel agents deal with customers in their own name and use the supplies and services of other taxable persons in the provision of travel facilities. This Article shall not apply to travel agents who are acting only as intermediaries and accounting for tax in accordance with Article 11 A (3) (c). In this Article travel agents include tour operators.

2. All transactions performed by the travel agent in respect of a journey shall be treated as a single service supplied by the travel agent to the traveller. It shall be taxable in the Member State in which the travel agent has established his business or has a fixed establishment from which the travel agent has provided the services. The taxable amount and the price exclusive of tax, within the meaning of Article 22 (3) (b), in respect of this service shall be the travel agent's margin, that is to say, the difference between the total amount to be paid by the

▼ **B**

traveller, exclusive of value added tax, and the actual cost to the travel agent of supplies and services provided by other taxable persons where these transactions are for the direct benefit of the traveller.

3. If transactions entrusted by the travel agent to other taxable persons are performed by such persons outside the Community, the travel agent's service shall be treated as an exempted intermediary activity under Article 15 (14). Where these transactions are performed both inside and outside the Community, only that part of the travel agent's service relating to transactions outside the Community may be exempted.

4. Tax charged to the travel agent by other taxable persons on the transactions described in paragraph 2 which are for the direct benefit of the traveller, shall not be eligible for deduction or refund in any Member State.

▼ **M8***Article 26a***Special arrangements applicable to second-hand goods, works of art, collectors' items and antiques***A. Definitions*

For the purposes of this Article, and without prejudice to other Community provisions:

- (a) *works of art* shall mean the objects referred to in (a) of Annex I.
However, Member States shall have the option of not considering as 'works of art' the items mentioned in the final three indents in (a) in Annex I;
- (b) *collectors' items* shall mean the objects referred to in (b) of Annex I;
- (c) *antiques* shall mean the objects referred to in (c) of Annex I;
- (d) *second-hand goods* shall mean tangible movable property that is suitable for further use as it is or after repair, other than works of art, collectors' items or antiques and other than precious metals or precious stones as defined by the Member States;
- (e) *taxable dealer* shall mean a taxable person who, in the course of his economic activity, purchases or acquires for the purposes of his undertaking, or imports with a view to resale, second-hand goods and/or works of art, collectors' items or antiques, whether that taxable person is acting for himself or on behalf of another person pursuant to a contract under which commission is payable on purchase or sale;
- (f) *organizer of a sale by public auction* shall mean any taxable person who, in the course of his economic activity, offers goods for sale by public auction with a view to handing them over to the highest bidder;
- (g) *principal of an organizer of a sale by public auction* shall mean any person who transmits goods to an organizer of a sale by public auction under a contract under which commission is payable on a sale subject to the following provisions:

 - the organizer of the sale by public auction hands over the goods, in his own name but on behalf of his principal, to the highest bidder at the public auction.

B. Special arrangements for taxable dealers

1. In respect of supplies of second-hand goods, works of art, collectors' items and antiques effected by taxable dealers, Member States shall apply special arrangements for taxing the profit margin made by the taxable dealer, in accordance with the following provisions.

2. The supplies of goods referred to in paragraph 1 shall be supplies, by a taxable dealer, of second-hand goods, works of art, collectors' items or antiques supplied to him within the Community:

▼ **M8**

- by a non-taxable person,
or
- by another taxable person, in so far as the supply of goods by that other taxable person is exempt in accordance with Article 13 (B) (c),
or
- by another taxable person in so far as the supply of goods by that other taxable person qualifies for the exemption provided for in Article 24 and involves capital assets,
or
- by another taxable dealer, in so far as the supply of goods by that other taxable dealer was subject to value added tax in accordance with these special arrangements.

3. The taxable amount of the supplies of goods referred to in paragraph 2 shall be the profit margin made by the taxable dealer, less the amount of value added tax relating to the profit margin. That profit margin shall be equal to the difference between the selling price charged by the taxable dealer for the goods and the purchase price.

For the purposes of this paragraph, the following definitions shall apply:

- *selling price* shall mean everything which constitutes the consideration, which has been, or is to be, obtained by the taxable dealer from the purchaser or a third party, including subsidies directly linked to that transaction, taxes, duties, levies and charges and incidental expenses such as commission, packaging, transport and insurance costs charged by the taxable dealer to the purchaser but excluding the amounts referred to in Article 11 (A) (3),
 - *purchase price* shall mean everything which constitutes the consideration defined in the first indent, obtained, or to be obtained, from the taxable dealer by his supplier.
4. Member States shall entitle taxable dealers to opt for application of the special arrangements to supplies of:
- (a) works of art, collectors' items or antiques which they have imported themselves;
 - (b) works of art supplied to them by their creators or their successors in title;
 - (c) works of art supplied to them by a taxable person other than a taxable dealer where the supply by that other taxable person was subject to the reduced rate pursuant to Article 12 (3) (c).

Member States shall determine the detailed rules for exercising this option which shall in any event cover a period at least equal to two calendar years.

If the option is taken up, the taxable amount shall be determined in accordance with paragraph 3. For supplies of works of art, collectors' items or antiques which the taxable dealer has imported himself, the purchase price to be taken into account in calculating the margin shall be equal to the taxable amount on importation, determined in accordance with Article 11 (B), plus the value added tax due or paid on importation.

5. Where they are effected in the conditions laid down in Article 15, the supplies of second-hand goods, works of art, collectors' item or antiques subject to the special arrangements for taxing the margin shall be exempt.

6. Taxable persons shall not be entitled to deduct from the tax for which they are liable the value added tax due or paid in respect of goods which have been, or are to be, supplied to them by a taxable dealer, in so far as the supply of those goods by the taxable dealer is subject to the special arrangements for taxing the margin.

7. In so far as goods are used for the purpose of supplies by him subject to the special arrangements for taxing the margin, the taxable dealer shall not be entitled to deduct from the tax for which he is liable:

▼ **M8**

- (a) the value added tax due or paid in respect of works of art, collectors' items or antiques which he has imported himself;
- (b) the value added tax due or paid in respect of works of art which have been, or are to be, supplied to him by their creators or their successors in title;
- (c) the value added tax due or paid in respect of works of art which have been, or are to be, supplied to him by a taxable person other than a taxable dealer.

8. Where he is led to apply both the normal arrangements for value added tax and the special arrangements for taxing the margin, the taxable dealer must follow separately in his accounts the transactions falling under each of these arrangements, according to rules laid down by the Member States,

9. The taxable dealer may not indicate separately on the invoices which he issues, ► **M20** ————— ◀ tax relating to supplies of goods which he makes subject to the special arrangements for taxing the margin.

10. In order to simplify the procedure for charging the tax and subject to the consultation provided for in Article 29, Member States may provide that, for certain transactions or for certain categories of taxable dealers, the taxable amount of supplies of goods subject to the special arrangements for taxing the margin shall be determined for each tax period during which the taxable dealer must submit the return referred to in Article 22 (4).

In that event, the taxable amount for supplies of goods to which the same rate of value added tax is applied shall be the total margin made by the taxable dealer less the amount of value added tax relating to that margin.

The total margin shall be equal to the difference between:

- the total amount of supplies of goods subject to the special arrangements for taxing the margin effected by the taxable dealer during the period; that amount shall be equal to the total selling prices determined in accordance with paragraph 3,
- and
- the total amount of purchases of goods as referred to in paragraph 2 effected, during that period, by the taxable dealer; that amount shall be equal to the total purchase prices determined in accordance with paragraph 3.

Member States shall take the necessary measures to ensure that the taxable persons concerned do not enjoy unjustified advantages or sustain unjustified loss.

11. The taxable dealer may apply the normal value added tax arrangements to any supply covered by the special arrangements pursuant to paragraph 2 or 4.

Where the taxable dealer applies the normal value added tax arrangements to:

- (a) the supply of a work of art, collectors' item or antique which he has imported himself, he shall be entitled to deduct from his tax liability the value added tax due or paid on the import of those goods;
- (b) the supply of a work of art supplied to him by its creator or his successors in title, he shall be entitled to deduct from his tax liability the value added tax due or paid for the work of art supplied to him;
- (c) the supply of a work of art supplied to him by a taxable person other than a taxable dealer, he shall be entitled to deduct from his tax liability the value added tax due or paid for the work of art supplied to him.

This right to deduct shall arise at the time when the tax due for the supply in respect of which the taxable dealer opts for application of the normal value added tax arrangements become chargeable.

▼ **M8**C. *Special arrangements for sales by public auction*

1. By way of derogation from B, Member States may determine, in accordance with the following provisions, the taxable amount of supplies of second-hand goods, works of art, collectors' items or antiques effected by an organizer of sales by public auction, acting in his own name, pursuant to a contract under which commission is payable on the sale of those goods by public auction, on behalf of:

- a non-taxable person,
- or
- another taxable person, in so far as the supply of goods, within the meaning of Article 5 (4) (c), by that other taxable person is exempt in accordance with Article 13 (B) (c),
- or
- another taxable person, in so far as the supply of goods, within the meaning of Article 5 (4) (c), by that other taxable person qualifies for the exemption provided for in Article 24 and involves capital assets,
- or
- a taxable dealer, in so far as the supply of goods, within the meaning of Article 5 (4) (c), by that other taxable dealer, is subject to tax in accordance with the special arrangements for taxing the margin provided for in B.

2. The taxable amount of each supply of goods referred to in paragraph 1 shall be the total amount invoiced in accordance with paragraph 4 to the purchaser by the organizer of the sale by public auction, less:

- the net amount paid or to be paid by the organizer of the sale by public auction to his principal, determined in accordance with paragraph 3,
- and
- the amount of the tax due by the organizer of the sale by public auction in respect of his supply.

3. The net amount paid or to be paid by the organizer of the sale by public auction to his principal shall be equal to the difference between:

- the price of the goods at public auction,
- and
- the amount of the commission obtained or to be obtained by the organizer of the sale by public auction from his principal, under the contract whereby commission is payable on the sale.

4. The organizer of the sale by public auction must issue to the purchaser an invoice ► **M20** ————— ◀ itemizing:

- the auction price of the goods,
- taxes, dues, levies and charges,
- incidental expenses such as commission, packing, transport and insurance costs charged by the organizer to the purchaser of the goods.

That invoice must not indicate any value added tax separately.

5. The organizer of the sale by public auction to whom the goods were transmitted under a contract whereby commission is payable on a public auction sale must issue a statement to his principal.

That statement must itemize the amount of the transaction, i.e. the auction price of the goods less the amount of the commission obtained or to be obtained from the principal.

A statement so drawn up shall serve as the invoice which the principal, where he is a taxable person, must issue to the organizer of the sale by public auction in accordance with Article 22 (3).

6. Organizers of sales by public auction who supply goods under the conditions laid down in paragraph 1 must indicate in their accounts, in suspense accounts:

▼ **M8**

- the amounts obtained or to be obtained from the purchaser of the goods,
- the amount reimbursed or to be reimbursed to the vendor of the goods.

These amounts must be duly substantiated.

7. The supply of goods to a taxable person who is an organizer of sales by public auction shall be regarded as being effected when the sale of those goods by public auction is itself effected.

D. Transitional arrangements for the taxation of trade between Member States

During the period referred to in Article 28l, Member States shall apply the following provisions:

- (a) supplies of new means of transport, within the meaning of Article 28a (2), effected within the conditions laid down in Article 28c (A) shall be excluded from the special arrangements provided for in B and C;
- (b) by way of derogation from Article 28a (1) (a), intra-Community acquisitions of second-hand goods, works of art, collectors' items or antiques shall not be subject to value added tax where the vendor is a taxable dealer acting as such and the goods acquired have been subject to tax in the Member State of departure of the dispatch or transport, in accordance with the special arrangements for taxing the margin provided for in B, or where the vendor is an organizer of sales by public auction acting as such and the goods acquired have been subject to tax in the Member State of departure of the dispatch or transport, in accordance with the special arrangements provided for in C;
- (c) Articles 28b (B) and 28c (A) (a), (c) and (d) shall not apply to supplies of goods subject to value added tax in accordance with either of the special arrangements laid down in B and C.

Article 26b

Special scheme for investment gold

A. Definition

For the purposes of this Directive, and without prejudice to other Community provisions: 'investment gold' shall mean:

- (i) gold, in the form of a bar or a wafer of weights accepted by the bullion markets, of a purity equal to or greater than 995 thousandths, whether or not represented by securities. Member States may exclude from the scheme small bars or wafers of a weight of 1 g or less;
- (ii) gold coins which:
 - are of a purity equal to or greater than 900 thousandths,
 - are minted after 1800,
 - are or have been legal tender in the country of origin, and
 - are normally sold at a price which does not exceed the open market value of the gold contained in the coins by more than 80 %.

Such coins are not, for the purpose of this Directive, considered to be sold for numismatic interest.

Each Member State shall inform the Commission before 1 July each year, starting in 1999, of the coins meeting these criteria which are traded in that Member State. The Commission shall publish a comprehensive list of these coins in the 'C' series of the *Official Journal of the European Communities* before 1 December each year. Coins included in the published list shall be deemed to fulfil these criteria for the whole year for which the list is published.

▼ **M13***B. Special arrangements applicable to investment gold transactions*

Member States shall exempt from value added tax the supply, intra-Community acquisition and importation of investment gold, including investment gold represented by certificates for allocated or unallocated gold or traded on gold accounts and including, in particular, gold loans and swaps, involving a right of ownership or claim in respect of investment gold, as well as transactions concerning investment gold involving futures and forward contracts leading to a transfer of right of ownership or claim in respect of investment gold.

Member States shall also exempt services of agents who act in the name and for the account of another when they intervene in the supply of investment gold for their principal.

C. Option to tax

Member States shall allow taxable persons who produce investment gold or transform any gold into investment gold as defined in A a right of option for taxation of supplies of investment gold to another taxable person which would otherwise be exempt under B.

Member States may allow taxable persons, who in their trade normally supply gold for industrial purposes, a right of option for taxation of supplies of investment gold as defined in A(i) to another taxable person, which would otherwise be exempt under B. Member States may restrict the scope of this option.

Where the supplier has exercised a right of option for taxation pursuant to the first or second paragraph, Member States shall allow a right of option for taxation for the agent in respect of the services mentioned in the second paragraph of B.

Member States shall specify the details of the use of these options, and shall inform the Commission of the rules of application for the exercise of these options in that Member State.

D. Right of deduction

1. Taxable persons shall be entitled to deduct

- (a) tax due or paid in respect of investment gold supplied to them by a person who has exercised the right of option under C or supplied to them pursuant to the procedure laid down in G;
- (b) tax due or paid in respect of supply to them, or intra-Community acquisition or importation by them, of gold other than investment gold which is subsequently transformed by them or on their behalf into investment gold;
- (c) tax due or paid in respect of services supplied to them consisting of change of form, weight or purity of gold including investment gold,

if their subsequent supply of this gold is exempt under this Article.

- 2. Taxable persons who produce investment gold or transform any gold into investment gold, shall be entitled to deduct tax due or paid by them in respect of supplies, or intra-Community acquisition or importation of goods or services linked to the production or transformation of that gold as if their subsequent supply of the gold exempted under this Article were taxable.

E. Special obligations for traders in investment gold

Member States shall, as a minimum, ensure that traders in investment gold keep account of all substantial transactions in investment gold and keep the documentation to allow identification of the customer in such transactions.

▼ **M13**

Traders shall keep this information for a period of at least five years.

Member States may accept equivalent obligations under measures adopted pursuant to other Community legislation, such as Council Directive 91/308/EEC of 10 June 1991 on prevention of the use of the financial system for the purpose of money laundering ⁽¹⁾, to meet the requirements of the first paragraph.

Member States may lay down stricter obligations, in particular on special record keeping or special accounting requirements.

F. *Reverse charge procedure*

By way of derogation from Article 21(1)(a), as amended by Article 28g, in the case of supplies of gold material or semi-manufactured products of a purity of 325 thousandths or greater, or supplies of investment gold where an option referred to in C of this Article has been exercised, Member States may designate the purchaser as the person liable to pay the tax, according to the procedures and conditions which they shall lay down. When they exercise this option, Member States shall take the measures necessary to ensure that the person designated as liable for the tax due fulfils the obligations to submit a statement and to pay the tax in accordance with Article 22.

G. *Procedure for transactions on a regulated gold bullion market*

1. A Member State may, subject to consultation provided for under Article 29, disapply the exemption for investment gold provided for by this special scheme in respect of specific transactions, other than intra-Community supplies or exports, concerning investment gold taking place in that Member State:

- (a) between taxable persons who are members of a bullion market regulated by the Member State concerned, and
- (b) where the transaction is between a member of a bullion market regulated by the Member State concerned and another taxable person who is not a member of that market.

Under these circumstances, these transactions shall be taxable and the following shall apply.

- 2. (a) For transactions under 1(a), for the purpose of simplification, the Member State shall authorise suspension of the tax to be collected as well as dispense with the recording requirements of value added tax.
- (b) For transactions under 1(b), the reverse charge procedure under F shall be applicable. Where a non-member of the bullion market would not, other than for these transactions, be liable for registration for VAT in the relevant Member State, the member shall fulfil the fiscal obligations on behalf of the non-member, according to the provisions of that Member State.

▼ **M21***Article 26c***Special scheme for non-established taxable persons supplying electronic services to non-taxable persons**A. *Definitions*

For the purposes of this Article, the following definitions shall apply without prejudice to other Community provisions:

- (a) 'non-established taxable person' means a taxable person who has neither established his business nor has a fixed establishment within the territory of the Community and who is not otherwise required to be identified for tax purposes under Article 22;
- (b) 'electronic services' and 'electronically supplied services' means those services referred to in the last indent of Article 9(2)(e);

⁽¹⁾ OJ L 166, 28.6.1991, p. 77.

▼ **M21**

- (c) ‘Member State of identification’ means the Member State which the non-established taxable person chooses to contact to state when his activity as a taxable person within the territory of the Community commences in accordance with the provisions of this Article;
- (d) ‘Member State of consumption’ means the Member State in which the supply of the electronic services is deemed to take place according to Article 9(2)(f);
- (e) ‘value added tax return’ means the statement containing the information necessary to establish the amount of tax that has become chargeable in each Member State.

B. Special scheme for electronically supplied services

1. Member States shall permit a non-established taxable person supplying electronic services to a non-taxable person who is established or has his permanent address or usually resides in a Member State to use a special scheme in accordance with the following provisions. The special scheme shall apply to all those supplies within the Community.

2. The non-established taxable person shall state to the Member State of identification when his activity as a taxable person commences, ceases or changes to the extent that he no longer qualifies for the special scheme. Such a statement shall be made electronically.

The information from the non-established taxable person to the Member State of identification when his taxable activities commence shall contain the following details for the identification: name, postal address, electronic addresses, including websites, national tax number, if any, and a statement that the person is not identified for value added tax purposes within the Community. The non-established taxable person shall notify the Member State of identification of any changes in the submitted information.

3. The Member State of identification shall identify the non-established taxable person by means of an individual number. Based on the information used for this identification, Member States of consumption may keep their own identification systems.

The Member State of identification shall notify the non-established taxable person by electronic means of the identification number allocated to him.

4. The Member State of identification shall exclude the non-established taxable person from the identification register if:

- (a) he notifies that he no longer supplies electronic services, or
- (b) it otherwise can be assumed that his taxable activities have ended, or
- (c) he no longer fulfils the requirements necessary to be allowed to use the special scheme, or
- (d) he persistently fails to comply with the rules concerning the special scheme.

5. The non-established taxable person shall submit by electronic means to the Member State of identification a value added tax return for each calendar quarter whether or not electronic services have been supplied. The return shall be submitted within 20 days following the end of the reporting period to which the return refers.

The value added tax return shall set out the identification number and, for each Member State of consumption where tax has become due, the total value, less value added tax, of supplies of electronic services for the reporting period and total amount of the corresponding tax. The applicable tax rates and the total tax due shall also be indicated.

6. The value added tax return shall be made in euro. Member States which have not adopted the euro may require the tax return to be made in their national currencies. If the supplies have been made in other currencies, the exchange rate valid for the last date of the reporting period shall be used when completing the value added tax return. The

▼ M21

exchange shall be done following the exchange rates published by the European Central Bank for that day, or, if there is no publication on that day, on the next day of publication.

7. The non-established taxable person shall pay the value added tax when submitting the return. Payment shall be made to a bank account denominated in euro, designated by the Member State of identification. Member States which have not adopted the euro may require the payment to be made to a bank account denominated in their own currency.

8. Notwithstanding Article 1(1) of Directive 86/560/EEC, the non-established taxable person making use of this special scheme shall, instead of making deductions under Article 17(2) of this Directive, be granted a refund according to Directive 86/560/EEC. Articles 2(2), 2(3) and 4(2) of Directive 86/560/EEC shall not apply to the refund related to electronic supplies covered by this special scheme.

9. The non-established taxable person shall keep records of the transactions covered by this special scheme in sufficient detail to enable the tax administration of the Member State of consumption to determine that the value added tax return referred to in paragraph 5 is correct. These records should be made available electronically on request to the Member State of identification and to the Member State of consumption. These records shall be maintained for a period of 10 years from the end of the year when the transaction was carried out.

10. Article 21(2)(b) shall not apply to a non-established taxable person who has opted for this special scheme.

TITLE XV

SIMPLIFICATION PROCEDURES

*Article 27***▼ M24**

1. The Council, acting unanimously on a proposal from the Commission, may authorise any Member State to introduce special measures for derogation from the provisions of this Directive, in order to simplify the procedure for charging the tax or to prevent certain types of tax evasion or avoidance. Measures intended to simplify the procedure for charging the tax, except to a negligible extent, may not affect the overall amount of the tax revenue of the Member State collected at the stage of final consumption.

2. A Member State wishing to introduce the measure referred to in paragraph 1 shall send an application to the Commission and provide it with all the necessary information. If the Commission considers that it does not have all the necessary information, it shall contact the Member State concerned within two months of receipt of the application and specify what additional information is required. Once the Commission has all the information it considers necessary for appraisal of the request it shall within one month notify the requesting Member State accordingly and it shall transmit the request, in its original language, to the other Member States.

3. Within three months of giving the notification referred to in the last sentence of paragraph 2, the Commission shall present to the Council either an appropriate proposal or, should it object to the derogation requested, a communication setting out its objections.

4. In any event, the procedure set out in paragraphs 2 and 3 shall be completed within eight months of receipt of the application by the Commission.

5. Those Member States which apply on 1 January 1977 special measures of the type referred to in paragraph 1 above may retain them providing they notify the Commission of them before 1 January 1978

In that case, Ireland shall submit its request to the Commission together with all necessary information. Member States shall take measures to ensure that transactions which would have been classed as 'supplies of goods' as defined in paragraph 5 or Article 5 if they had been carried out within the territory of the country by a taxable person acting as such are classed as 'intra-Community acquisitions of goods'.

Article 28b

Place of transactions

A. Place of the intra-Community acquisition of goods

1. The place of the intra-Community acquisition of goods shall be deemed to be the place where the goods are at the time when dispatch or transport to the person acquiring them ends.

2. Without prejudice to paragraph 1, the place of the intra-Community acquisition of goods referred to in Article 28a (1) (a) shall, however, be deemed to be within the territory of the Member State which issued the value added tax identification number under which the person acquiring the goods made the acquisition, unless the person acquiring the goods establishes that that acquisition has been subject to tax in accordance with paragraph 1.

If, however, the acquisition is subject to tax in accordance with paragraph 1 in the Member State of arrival of the dispatch or transport of the goods after having been subject to tax in accordance with the first subparagraph, the taxable amount shall be reduced accordingly in the Member State which issued the value added tax identification number under which the person acquiring the goods made the acquisition.

▼ **M6**

For the purposes of applying the first subparagraph, the intra-Community acquisition of goods shall be deemed to have been subject to tax in accordance with paragraph 1 when the following conditions have been met:

▼ **M6**

- the acquirer establishes that he has effected this intra-Community acquisition for the needs of a subsequent supply effected in the Member State referred to in paragraph 1 and for which the consignee has been designated as the person liable for the tax due in accordance with Article 28c (E) (3),
- the obligations for declaration set out in the last subparagraph of Article 22 (6) (b) have been satisfied by the acquirer.

▼ **M4**B. *Place of the supply of goods*

1. By way of derogation from Article 8 (1) (a) and (2), the place of the supply of goods dispatched or transported by or on behalf of the supplier from a Member State other than that of arrival of the dispatch or transport shall be deemed to be the place where the goods are when dispatch or transport to the purchaser ends, where the following conditions are fulfilled:

- the supply of goods is effected for a taxable person eligible for the derogation provided for in the second subparagraph of Article 28a (1) (a), for a non-taxable legal person who is eligible for the same derogation or for any other non-taxable person,
- the supply is of goods other than new means of transport and other than goods supplied after assembly or installation, with or without a trial run, by or on behalf of the supplier.

Where the goods thus supplied are dispatched or transported from a third territory and imported by the supplier into a Member State other than the Member State of arrival of the goods dispatched or transported to the purchaser, they shall be regarded as having been dispatched or transported from the Member State of import.

2. However, where the supply is of goods other than products subject to excise duty, paragraph 1 shall not apply to supplies of goods dispatched or transported to the same Member State of arrival of the dispatch or transport where:

- the total value of such supplies, less value added tax, does not in one calendar year exceed the equivalent in national currency of ECU 100 000,
- and
- the total value, less value added tax, of the supplies of goods other than products subject to excise duty effected under the conditions laid down in paragraph 1 in the previous calendar year did not exceed the equivalent in national currency of ECU 100 000.

The Member State within the territory of which the goods are when dispatch or transport to the purchaser ends may limit the thresholds referred to above to the equivalent in national currency of ECU 35 000 where that Member State fears that the threshold of ECU 100 000 referred to above would lead to serious distortions of the conditions of competition. Member States which exercise this option shall take the measures necessary to inform the relevant public authorities in the Member State of dispatch or transport of the goods.

Before 31 December 1994, the Commission shall report to the Council on the operation of the special ECU 35 000 thresholds provided for in the preceding subparagraph. In that report the Commission may inform the Council that the abolition of the special thresholds will not lead to serious distortions of the conditions of competition. Until the Council takes a unanimous decision on a Commission proposal, the preceding subparagraph shall remain in force.

3. The Member State within the territory of which the goods are at the time of departure of the dispatch or transport shall grant those taxable persons who effect supplies of goods eligible under paragraph 2 the right to choose that the place of such supplies shall be determined in accordance with paragraph 1.

▼ **M4**

The Member States concerned shall determine the detailed rules for the exercise of that option, which shall in any case apply for two calendar years.

Article 21 shall be replaced by the following:

▶ **M18** *Article 21***Persons liable for payment for tax**

1. Under the internal system, the following shall be liable to pay value added tax:

▶ **M23** (a) the taxable person carrying out the taxable supply of goods or of services, except for the cases referred to in (b), (c) and (f). Where the taxable supply of goods or of services is effected by a taxable person who is not established within the territory of the country, Member States may, under the conditions determined by them, lay down that the person liable to pay tax is the person for whom the taxable supply of goods or of services is carried out; ◀

(b) taxable persons to whom services covered by Article 9(2)(e) are supplied or persons who are identified for value added tax purposes within the territory of the country to whom services covered by Article 28b(C), (D), (E) and (F) are supplied, if the services are carried out by a taxable person not established within the territory of the country;

(c) the person to whom the supply of goods is made when the following conditions are met:

- the taxable operation is a supply of goods made under the conditions laid down in Article 28c(E)(3),
- the person to whom the supply of goods is made is another taxable person or a non-taxable legal person identified for the purposes of value added tax within the territory of the country,
- the invoice issued by the taxable person not established within the territory of the country conforms to Article 22(3).

However, Member States may provide a derogation from this obligation, where the taxable person who is not established within the territory of the country has appointed a tax representative in that country;

(d) any person who mentions the value added tax on an invoice ▶ **M20** ————— ◀;

(e) any person effecting a taxable intra-Community acquisition of goods;

▶ **M23** (f) persons who are identified for value added tax purposes within the territory of the country and to whom goods are supplied under the conditions set out in Article 8(1)(d) or (e), if the supplies are carried out by a taxable person not established within the territory of the country. ◀

2. By way of derogation from the provisions of paragraph 1:

(a) where the person liable to pay tax in accordance with the provisions of paragraph 1 is a taxable person who is not established within the territory of the country, Member States may allow him to appoint a tax representative as the person liable to pay tax. This option shall be subject to conditions and procedures laid down by each Member State;

(b) where the taxable transaction is effected by a taxable person who is not established within the territory of the country and no legal instrument exists, with the country in which that taxable person is established or has his seat, relating to mutual assistance similar in scope to that laid down by Directives 76/308/EEC (*) and 77/799/EEC (**), and by Council Regulation (EEC) No 218/92 of 27 January 1992 on administrative cooperation in the field of indirect taxation (VAT) (***), Member States

*Article 28h***Obligations of persons liable for payment**

Article 22 shall be replaced by the following:

Article 22

Obligations under the internal system:

1. ► **M21** (a) Every taxable person shall state when his activity as a taxable person commences, changes or ceases. Member States shall, subject to conditions which they lay down, allow the taxable person to make such statements by electronic means, and may also require that electronic means are used. ◀
- (b) Without prejudice to (a), every taxable person referred to in Article 28a (1) (a), second subparagraph, shall state that he is effecting intra-Community acquisitions of goods when the conditions for application of the derogation provided for in that Article are not fulfilled.
- (c) Member States shall take the measures necessary to identify by means of an individual number:
 - ► **M23** every taxable person, with the exception of those referred to in Article 28a(4), who, within the territory of the country, effects supplies of goods or of services giving him the right of deduction, other than supplies of goods or of services for which tax is payable solely by the customer or the recipient in accordance with Article 21(1)(a), (b), (c) or (f). However, Member States need not identify certain taxable persons referred to in article 4 (3), ◀
 - every taxable person referred to in paragraph 1 (b) and every taxable person who exercises the option provided for in the third subparagraph of Article 28a (1) (a).

▼ **M6**

- every taxable person who, within the territory of the country, effects intra-Community acquisitions of goods for the purposes of his operations relating to the economic activities referred to in Article 4 (2) carried out abroad,

▼ **M4**

- (d) Each individual identification number shall have a prefix in accordance with ISO International Standard No 3166 — alpha 2 — by which the Member State of issue may be identified. ► **M20** Nevertheless, the Hellenic Republic shall be authorised to use the prefix "EL". ◀

▼ M4

- (e) Member States shall take the measures necessary to ensure that their identification systems distinguish the taxable persons referred to in (c) and to ensure the correct application of the transitional arrangements for the taxation of intra-Community transactions as laid down in this Title.
2. (a) Every taxable person shall keep accounts in sufficient detail for value added tax to be applied and inspected by the tax authority.

▼ M10

- (b) Every taxable person shall keep a register of the goods he has dispatched or transported or which have been dispatched or transported on his behalf out of the territory defined in Article 3 but within the Community for the purposes of the transactions referred to in the fifth, sixth and seventh indents of Article 28a (5) (b).

Every taxable person shall keep sufficiently detailed accounts to permit the identification of goods dispatched to him from another Member State by or on behalf of a taxable person identified for purposes of value added tax in that other Member State, in connection with which a service has been provided pursuant to the third or fourth indent of Article 9 (2) (c);

▼ M20

3. (a) Every taxable person shall ensure that an invoice is issued, either by himself or by his customer or, in his name and on his behalf, by a third party, in respect of goods or services which he has supplied or rendered to another taxable person or to a non-taxable legal person. Every taxable person shall also ensure that an invoice is issued, either by himself or by his customer or, in his name and on his behalf, by a third party, in respect of the supplies of goods referred to in Article 28b(B)(1) and in respect of goods supplied under the conditions laid down in Article 28c(A).

Every taxable person shall likewise ensure that an invoice is issued, either by himself or by his customer or, in his name and on his behalf, by a third party, in respect of any payment on account made to him before any supplies of goods referred to in the first subparagraph and in respect of any payment on account made to him by another taxable person or non-taxable legal person before the provision of services is completed.

Member States may impose on taxable persons an obligation to issue an invoice in respect of goods or services other than those referred to in the preceding subparagraphs which they have supplied or rendered on their territory. When they do so, Member States may impose fewer obligations in respect of these invoices than those listed under points (b), (c) and (d).

The Member States may release taxable persons from the obligation to issue an invoice in respect of goods or services which they have supplied or rendered in their territory and which are exempt, with or without refund of the tax paid at the preceding stage, pursuant to Article 13, Article 28(2)(a) and Article 28(3)(b).

Any document or message that amends and refers specifically and unambiguously to the initial invoice is to be treated as an invoice. Member States in whose territory goods or services are supplied or rendered may allow some of the obligatory details to be left out of such documents or messages.

Member States may impose time limits for the issue of invoices on taxable persons supplying goods and services in their territory.

▼ **M20**

Under conditions to be laid down by the Member States in whose territory goods or services are supplied or rendered, a summary invoice may be drawn up for several separate supplies of goods or services.

Invoices may be drawn up by the customer of a taxable person in respect of goods or services supplied or rendered to him by that taxable person, on condition that there is at the outset an agreement between the two parties, and on condition that a procedure exists for the acceptance of each invoice by the taxable person supplying the goods or services. The Member States in whose territory the goods or services are supplied or rendered shall determine the terms and conditions of the agreement and of the acceptance procedures between the taxable person and his customer.

Member States may impose further conditions on the issue of invoices by the customers of taxable persons supplying goods or services on their territory. For example, they may require that such invoices be issued in the name and on behalf of the taxable person. Such conditions must always be the same wherever the customer is established.

Member States may also lay down specific conditions for taxable persons supplying goods or services in their territory in cases where the third party, or the customer, who issues invoices is established in a country with which no legal instrument exists relating to mutual assistance similar in scope to that laid down by Council Directive 76/308/EEC of 15 March 1976 on mutual assistance for the recovery of claims relating to certain levies, duties, taxes and other measures (*), Council Directive 77/799/EEC of 19 December 1977 concerning mutual assistance by the competent authorities of the Member States in the field of direct and indirect taxation (**), and by Council Regulation (EEC) No 218/92 of 27 January 1992 on administrative cooperation in the field of indirect taxation (VAT) (***) .

- (b) Without prejudice to the specific arrangements laid down by this Directive, only the following details are required for VAT purposes on invoices issued under the first, second and third subparagraphs of point (a):
- the date of issue;
 - a sequential number, based on one or more series, which uniquely identifies the invoice,
 - the VAT identification number referred to in paragraph 1 (c) under which the taxable person supplied the goods or services;
 - where the customer is liable to pay tax on goods supplied or services rendered or has been supplied with goods as referred to in Article 28c(A), the VAT identification number as referred to in paragraph 1(c) under which the goods were supplied or the services rendered to him;
 - the full name and address of the taxable person and of his customer;
 - the quantity and nature of the goods supplied or the extent and nature of the services rendered;
 - the date on which the supply of goods or of services was made or completed or the date on which the payment on account referred to in the second subparagraph of point (a) was made, insofar as that a date can be determined and differs from the date of issue of the invoice;
 - the taxable amount per rate or exemption, the unit price exclusive of tax and any discounts or rebates if they are not included in the unit price;
 - the VAT rate applied;

▼ **M20**

- the VAT amount payable, except where a specific arrangement is applied for which this Directive excludes such a detail;
- where an exemption is involved or where the customer is liable to pay the tax, reference to the appropriate provision of this directive, to the corresponding national provision, or to any indication that the supply is exempt or subject to the reverse charge procedure;
- where the intra-Community supply of a new means of transport is involved, the particulars specified in Article 28a(2);
- where the margin scheme is applied, reference to Article 26 or 26a, to the corresponding national provisions, or to any other indication that the margin scheme has been applied;
- where the person liable to pay the tax is a tax representative within the meaning of Article 21(2), the VAT identification number referred to in paragraph 1(c) of that tax representative, together with his full name and address.

Member States may require taxable persons established on their territory and supplying goods or services on their territory to indicate the VAT identification number referred to in paragraph 1(c) of their customer in cases other than those referred to in the fourth indent of the first subparagraph.

Member States shall not require invoices to be signed.

The amounts which appear on the invoice may be expressed in any currency, provided that the amount of tax to be paid is expressed in the national currency of the Member State where the supply of goods or services takes place, using the conversion mechanism laid down in Article 11 C(2).

Where necessary for control purposes, Member States may require invoices in respect of goods supplied or services rendered in their territory and invoices received by taxable persons in their territory to be translated into their national languages.

- (c) Invoices issued pursuant to point (a) may be sent either on paper or, subject to an acceptance by the customer, by electronic means.

Invoices sent by electronic means shall be accepted by Member States provided that the authenticity of the origin and integrity of the contents are guaranteed:

- by means of an advanced electronic signature within the meaning of Article 2(2) of Directive 1999/93/EC of the European Parliament and of the Council of 13 December 1999 on a Community framework for electronic signatures (***); Member States may however ask for the advanced electronic signature to be based on a qualified certificate and created by a secure-signature-creation device, within the meaning of Article 2(6) and (10) of the aforementioned Directive;
- or by means of electronic data interchange (EDI) as defined in Article 2 of Commission Recommendation 1994/820/EC of 19 October 1994 relating to the legal aspects of electronic data interchange (****) when the agreement relating to the exchange provides for the use of procedures guaranteeing the authenticity of the origin and integrity of the data; however Member States may, subject to conditions which they lay down, require that an additional summary document on paper is necessary.

Invoices may, however, be sent by other electronic means subject to acceptance by the Member State(s) concerned. The Commission will present, at the latest on 31 December 2008, a report, together with a proposal, if appropriate, amending

▼ **M20**

the conditions on electronic invoicing in order to take account of possible future technological developments in this field.

Member States may not impose on taxable persons supplying goods or services in their territory any other obligations or formalities relating to the transmission of invoices by electronic means. However, they may provide, until 31 December 2005, that the use of such a system is to be subject to prior notification.

Member States may lay down specific conditions for invoices issued by electronic means for goods or services supplied in their territory from a country with which no legal instrument exists relating to mutual assistance similar in scope to that laid down by Directives 76/308/EEC and 77/799/EEC and by Regulation (EEC) No 218/92.

When batches containing several invoices are sent to the same recipient by electronic means, the details that are common to the individual invoices may be mentioned only once if, for each invoice, all the information is accessible.

- (d) Every taxable person shall ensure that copies of invoices issued by himself, by his customer or, in his name and on his behalf, by a third party, and all the invoices which he has received are stored.

For the purposes of this Directive, the taxable person may decide the place of storage provided that he makes the invoices or information stored there available without undue delay to the competent authorities whenever they so request. Member States may, however, require taxable persons established in their territory to notify them of the place of storage, if it is outside their territory. Member States may, in addition, require taxable persons established in their territory to store within the country invoices issued by themselves or by their customers or, in their name and on their behalf, by a third party, as well as all the invoices which they have received, when the storage is not by electronic means guaranteeing full on-line access to the data concerned.

The authenticity of the origin and integrity of the content of the invoices, as well as their readability, must be guaranteed throughout the storage period. As regards the invoices referred to in the third subparagraph of point (c), the information they contain may not be altered; it must remain legible throughout the aforementioned period.

The Member States shall determine the period for which taxable persons must store invoices relating to goods or services supplied in their territory and invoices received by taxable persons established in their territory.

In order to ensure that the conditions laid down in the third subparagraph are met, Member States referred to in the fourth subparagraph may require that invoices be stored in the original form in which they were sent, whether paper or electronic. They may also require that when invoices are stored by electronic means, the data guaranteeing the authenticity of the origin and integrity of the content also be stored.

Member States referred to in the fourth subparagraph may impose specific conditions prohibiting or restricting the storage of invoices in a country with which no legal instrument exists relating to mutual assistance similar in scope to that laid down by Directives 76/308/EEC, 77/799/EEC and by Regulation (EEC) No 218/92 and to the right of access by electronic means, download and use referred to in Article 22a.

Member States may, subject to conditions which they lay down, require the storage of invoices received by non-taxable persons.

▼ **M20**

- (e) For the purposes of points (c) and (d), transmission and storage of invoices "by electronic means" shall mean transmission or making available to the recipient and storage using electronic equipment for processing (including digital compression) and storage of data, and employing wires, radio transmission, optical technologies or other electromagnetic means.

For the purposes of this Directive, Member States shall accept documents or messages in paper or electronic form as invoices if they meet the conditions laid down in this paragraph.

▼ **M4**

4. ► **M21** (a) Every taxable person shall submit a return by a deadline to be determined by Member States. That deadline may not be more than two months later than the end of each tax period. The tax period shall be fixed by each Member State at one month, two months or a quarter. Member States may, however, set different periods provided that they do not exceed one year. Member States shall, subject to conditions which they lay down, allow the taxable person to make such returns by electronic means, and may also require that electronic means are used. ◀
- (b) The return shall set out all the information needed to calculate the tax that has become chargeable and the deductions to be made including, where appropriate, and in so far as it seems necessary for the establishment of the basis of assessment, the total value of the transactions relative to such tax and deductions and the value of any exempt transactions.
- (c) The return shall also set out:

- on the one hand, the total value, less value added tax, of the supplies of goods referred to in Article 28c (A) on which tax has become chargeable during the period.

The following shall also be added: the total value, less value added tax, of the supplies of goods referred to in the second sentence of Article 8 (1) (a) and in Article 28b (B) (1) effected within the territory of another Member State for which tax has become chargeable during the return period where the place of departure of the dispatch or transport of the goods is situated in the territory of the country,

▼ **M6**

- on the other hand, the total amount, less value-added tax of the intra-Community acquisitions of goods referred to in Article 28a (1) and (6) effected within the territory of the country on which tax has become chargeable.

The following shall also be added: the total value, less value-added tax, of the supplies of goods referred to in the second sentence of Article 8 (1) (a) and in Article 28 (b) (B) (1) effected in the territory of the country on which tax has become chargeable during the return period, where the place of departure of the dispatch or transport of the goods is situated within the territory of another Member State, and the total amount, less value-added tax, of the supplies of goods made within the territory of the country for which the taxable person has been designated as the person liable for the tax in accordance with Article 28c (E) (3) and under which the tax has become payable in the course of the period covered by the declaration.

▼ **M4**

5. Every taxable person shall pay the net amount of the value added tax when submitting the regular return. Member States may, however, set a different date for the payment of that amount or may demand an interim payment.

6. ► **M21** (a) Member States may require a taxable person to submit a statement, including all the particulars specified in paragraph 4, concerning all transactions carried out in the preceding year. That statement shall provide all the information necessary for any adjustments. Member States shall, subject to conditions which they lay down, allow the taxable person to make such statements by electronic means, and may also require that electronic means are used. ◀

▼ **M10**

(b) Every taxable person identified for value added tax purposes shall also submit a recapitulative statement of the acquirers identified for value added tax purposes to whom he has supplied goods under the conditions provided for in Article 28c (A) (a) and (d), and of consignees identified for value added tax purposes in the transactions referred to in the fifth subparagraph.

▼ **M21**

The recapitulative statement shall be drawn up for each calendar quarter within a period and in accordance with procedures to be determined by the Member States, which shall take the measures necessary to ensure that the provisions concerning administrative cooperation in the field of indirect taxation are in any event complied with. Member States shall, subject to conditions which they lay down, allow the taxable person to make such statements by electronic means, and may also require that electronic means are used.

▼ **M4**

The recapitulative statement shall set out:

— the number by which the taxable person is identified for purposes of value added tax in the territory of the country and under which he effected supplies of goods in the conditions laid down in ► **M6** Article 28c (A) (a) ◀,

▼ **M10**

— the number by which each person acquiring goods is identified for purposes of value added tax in another Member State and under which the goods were supplied to him,

▼ **M4**

— for each person acquiring goods, the total value of the supplies of goods effected by the taxable person. Those amounts shall be declared for the calendar quarter during which the tax became chargeable.

The recapitulative statement shall also set out:

— for the supplies of goods covered by ► **M6** Article 28c (A) (d) ◀, the number by means of which the taxable person is identified for purposes of value added tax in the territory of the country, the number by which he is identified in the Member State of arrival of the dispatch or transport ► **M6** and the total amount of the supplies, determined in accordance with Article 28e (2) ◀,

— the amounts of adjustments made pursuant to Article 11 (C) (1). Those amounts shall be declared for the calendar quarter during which the person acquiring the goods is notified of the adjustment.

▼ **M10**▼ **M6**

In the cases set out in the third subparagraph of Article 28b (A) (2), the taxable person identified for value added tax purposes within the territory of the country shall mention in a clear way on the recapitulative statement:

- the number by which he is identified for value added tax purposes within the territory of the country and under which he carried out the intra-Community acquisition and the subsequent supply of goods,
- the number by which, within the territory of the Member State of arrival of the dispatch or transport of the goods, the consignee of the subsequent supply by the taxable person is identified,
- and, for each consignee, the total amount, less value added tax, of the supplies made by the taxable person within the territory of the Member State of arrival of the dispatch or transport of the goods. These amounts shall be declared for the calendar quarter during which the tax became chargeable.

▼ **M4**

(c) By way of derogation from (b), Member States may:

- require recapitulative statements to be filed on a monthly basis,
- require that recapitulative statements give additional particulars.

(d) In the case of supplies of new means of transport effected under the conditions laid down in Article 28c (A) (b) by a taxable person identified for purposes of value added tax to a purchaser not identified for purposes of value added tax or by a taxable person as defined in Article 28a (4), Member States shall take the measures necessary to ensure that the vendor communicates all the information necessary for value added tax to be applied and inspected by the tax authority.

(e) Member States may require taxable persons who in the territory of the country effect intra-Community acquisitions of goods as defined in Article 28a (1) (a) and (6) to submit statements giving details of such acquisitions provided, however, that such statements may not be required for a period of less than one month.

Member States may also require persons who effect intra-Community acquisitions of new means of transport as defined in Article 28a (1) (b) to provide, when submitting the return referred to in paragraph 4, all the information necessary for value added tax to be applied and inspected by the tax authority.

▼ **M18**

7. Member States shall take the measures necessary to ensure that those persons who, in accordance with Article 21(1) and (2), are considered to be liable to pay the tax instead of a taxable person not established within the territory of the country comply with the obligations relating to declaration and payment set out in this Article; they shall also take the measures necessary to ensure that those persons who, in accordance with Article 21(3), are held to be jointly and severally liable for payment of the tax comply with the obligations relating to payment set out in this Article.

▼ M4

8. Member States may impose other obligations which they deem necessary for the correct collection of the tax and for the prevention of evasion, subject to the requirement of equal treatment for domestic transactions and transactions carried out between Member States by taxable persons and provided that such obligations do not, in trade between Member States, give rise to formalities connected with the crossing of frontiers.

▼ M20

The option provided for in the first subparagraph cannot be used to impose additional obligations over and above those laid down in paragraph 3.

▼ M4

9. (a) Member States may release from certain or all obligations:
- taxable persons carrying out only supplies of goods or of services which are exempt pursuant to Articles 13 and 15,
 - taxable persons eligible for the exemption from tax provided for in Article 24 and for the derogation provided for in Article 28a (1) (a), second subparagraph,
 - taxable persons carrying out none of the transactions referred to in paragraph 4 (c).

▼ M20

Without prejudice to the provisions laid down in point (d), Member States may not, however, release the taxable persons referred to in the third indent from the obligations referred to in Article 22(3).

▼ M4

- (b) Member States may release taxable persons other than those referred to in (a) from certain of the obligations referred to in 2 (a).
- (c) Member States may release taxable persons from payment of the tax due where the amount involved is insignificant.

▼ M20

- (d) Subject to consultation of the Committee provided for in Article 29 and under the conditions which they may lay down, Member States may provide that invoices in respect of goods supplied or services rendered in their territory do not have to fulfil some of the conditions laid down in paragraph 3(b) in the following cases:

- when the amount of the invoice is minor, or
- when commercial or administrative practice in the business sector concerned or the technical conditions under which the invoices are issued make it difficult to comply with all the requirements referred to in paragraph 3(b).

In any case, these invoices must contain the following:

- the date of issue,
- identification of the taxable person,
- identification of the type of goods supplied or services rendered,
- the tax due or the information needed to calculate it.

The simplified arrangements provided for in this point may not be applied to transactions referred to in paragraph 4(c).

- (e) In cases where Member States make use of the option provided for in the third indent of point (a) to refrain from allocating a number as referred to in paragraph 1(c) to taxable persons who do not carry out any of the transactions referred to in paragraph 4(c), and where the supplier or the customer have not been allocated an identification number of

▼ **M20**

this type, the invoice should feature instead another number called the tax reference number, as defined by the Member States concerned.

When the taxable person has been allocated an identification number as referred to in paragraph 1(c), the Member States referred to in the first subparagraph may also require the invoice to show:

- for services rendered referred to in Article 28b(C), (D), (E) and (F) and for supplies of goods referred to in Article 28c(A) and (E) point 3, the number referred to in paragraph 1(c) and the tax reference number of the supplier;
- for other supplies of goods and services, only the tax reference number of the supplier or only the number referred to in paragraph 1(c).

▼ **M4**

10. Member States shall take measures to ensure that non-taxable legal persons who are liable for the tax payable in respect of intra-Community acquisitions of goods covered by the first subparagraph of Article 28a (1) (a) comply with the above obligations relating to declaration and payment and that they are identified by an individual number as defined in paragraph 1 (c), (d) and (e).

► **M6** 11. In the case of intra-Community acquisitions of products subject to excise duty referred to in Article 28a (1) (c) as well as ◀ in the case of intra-Community acquisitions of new means of transport covered by Article 28a (1) (b), Member States shall adopt arrangements for declaration and subsequent payment.

12. Acting unanimously on a proposal from the Commission, the Council may authorize any Member State to introduce particular measures to simplify the statement obligations laid down in paragraph 6 (b). Such simplification measures, which shall not jeopardize the proper monitoring of intra-Community transactions, may take the following forms:

- (a) Member States may authorize taxable persons who meet the following three conditions to file one-year recapitulative statements indicating the numbers by which the persons to whom those taxable persons have supplied goods under the conditions laid down in Article 28c (A) are identified for purposes of value added tax in other Member States:
- the total annual value, less value added tax, of their supplies of goods or provisions of services, as defined in Articles 5, 6 and 28a (5), does not exceed by more than ECU 35 000 the amount of the annual turnover which is used as a reference for application of the exemption from tax provided for in Article 24,
 - the total annual value, less value added tax, of supplies of goods effected by them under the conditions laid down in Article 28c (A) does not exceed the equivalent in national currency of ECU 15 000,
 - supplies of goods effected by them under the conditions laid down in Article 28c (A) are other than supplies of new means of transport;
- (b) Member States which set at over three months the tax period for which taxable persons must submit the returns provided for in paragraph 4 may authorize such persons to submit recapitulative statements for the same period where those taxable persons meet the following three conditions:
- the overall annual value, less value added tax, of the goods and the services they supply, as defined in Articles 5, 6 and 28a (5), does not exceed the equivalent in national currency of ECU 200 000,

▼ **M4**

- the total annual value, less value added tax, of supplies of goods effected by them under the conditions laid down in Article 28c (A) does not exceed the equivalent in national currency of ECU 15 000,
- supplies of goods effected by them under the conditions laid down in Article 28c (A) are other than supplies of new means of transport.’

ANNEX C (1)

COMMON METHOD OF CALCULATION

- I. For the purposes of calculating the value added for all agricultural, forestry and fisheries undertakings, the following shall be taken into account exclusive of value added tax:
1. the value of the total final production including farmers own consumption of the classes 'agricultural products and game' and 'wood in the rough' as set out in points IV and V below, plus the output of the processing activities referred to in point V of Annex A;
 2. the value of the total inputs required to achieve the production referred to in (1);
 3. the value of the gross fixed-asset formation in connection with the activities listed in Annexes A and B.
- II. To determine the deductible taxable inputs and outputs of flat-rate farmers, the inputs and outputs of farmers taxed under the normal value added tax scheme shall be deducted from the national accounts, taking into account the same factors as those in paragraph I.
- III. The value added for flat-rate farmers is equal to the difference between the value of total final production, exclusive of value added tax, as referred to in point I (1), and the total value of inputs as referred to in point I (2) together with gross fixed-asset formation as referred to in point I (3). All these factors relate to flat-rate farmers only.
- IV. AGRICULTURAL PRODUCTS AND GAME
