## Choose a plane. Get a partner.

Few manufacturers of light aircraft offer such a complete choice as SOCATA. Fewer yet provide such a total approach to service and support. SOCATA is the only aircraft manufacturer in the world that offers a complete line of training aircraft from entry level trainers to high-end turboprops for both civilian and military use.

With over 85 years of experience in developing aviation technology, SOCATA has developed service and support programs that are second to none. And

around the world, our civilian and military training systems are constantly setting new standards for performance. Whether you choose a single, twin or turboprop, for pleasure, training, business or specific missions, you can benefit from our unique approach. It will save you both time and money in the long run.

So why just choose a plane when you can get a partner?
