Eaglet-500 plane passes CAAC examination

People view a Little Eaglet-500 plane during an international investment and trade fair held in Shijiazhuang, capital of north China's Hebei Province, on Nov.1, 2005. The Little Eaglet-500 plane, China's first plane with all intellectual property rights, has passed the airworthiness examination by the general bureau of the Civil Aviation Administration of China (CAAC) and could be put into batch production.
