Benefit from the quality and speed of a desktop printer with the compact, portable PIXMA iP90. IrDA and an optional Bluetooth adapter enable wireless printing from camera phones, PC's and PDA's

Features

- Compact and powerful portable inkjet photo printer
- Convenient wireless printing with IrDA & optional Bluetooth®
- 4800x1200** dpi FINE print head with 2pl Micro-Nozzles
- Up to 16ppm mono and 12ppm colour
- PictBridge port for camera direct photo printing

Incredibly powerful and surprisingly compact

Photo lab quality on the move
The portable PIXMA iP90 utilises Canon's FINE* print head technology to deliver the photo quality and print speed of a professional desktop printer. Micro-Nozzles ejecting tiny 2pl ink droplets enable a high 4800 x 1200dpi** resolution - for outstanding accuracy and true colour excellence.

Productive print speeds
The PIXMA iP90 prints at up to 16 ppm in mono and 12 ppm in colour. It can also print a 10 x 15cm borderless photo in just 51 seconds, and is the only portable printer capable of producing borderless prints up to an A4 size - making it ideal for photo enlargements.

Wireless printing freedom
The PIXMA iP90 offers IrDA as standard and an optional Bluetooth adapter for convenient, cable-free printing. The capability to print wirelessly from compatible camera phones, PC's and PDA's ensures complete printing freedom. Weighing just 1.8 kg, this ultra compact, portable printer will meet the needs of the most demanding users.

Direct camera printing
The iP90 prints photos directly from any PictBridge compatible digital camera or camcorder - without the need for a PC - giving beautiful borderless prints, anytime and anywhere.

100 years print life
With up to 100 years print life when stored in a photo album, photos can be enjoyed and shared for a lifetime (see www.canon-europe.com for optimal storage conditions).

Portability and lasting power
When no mains power is available, Canon's optional Li-ion battery ensures the iP90 still keeps on printing. The space-saving cradle kit supports the printer when not in use, making recharging even easier. An optional car adapter is also available, allowing the printer to be powered from a car's cigarette lighter socket. So everyone can print everywhere.

Windows & Mac compatible
The PIXMA iP90 works with all popular Windows and Mac operating systems, for full flexibility.
